Type: PRELICENSE INSPECTION #1

Date: Jul-22-2010

ROLLA, MO 65401

2.40 (b) (2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Sec. 2.40 Attending veterinarian and adequate veterinary care (dealers and exhibitors).

(b) Each dealer or exhibitor shall establish and maintain programs of adequate veterinary care that include:

(2) The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care.

***In the sheltered facility, there was one adult dog that presented with slightly matted hair around the neck area. Matted hair does not provide the appropriate insulation for the animal, creates a harbor place for dirt, debris, insects and pests which can lead to skin issues.

Affects 1 adult dog.

***The program of veterinary care was incomplete. Medications were listed, yet no dosages, frequencies or directions were documented for these medications in the parasite control section. Lack of written direction can lead to error in administering medications and the desired effect may not be obtained.

Affects all the dogs in the facility.

The owner needs to establish and maintain a program of veterinary care to assure that appropriate methods to prevent, control, diagnose, and treat diseases and injuries are being used throughout the facility in order to be in compliance with this regulation.

3.1 (c) (3)

HOUSING FACILITIES, GENERAL.

Sec. 3.1 Housing facilities, general.

(c) Surfaces--

(3) Cleaning. Hard surfaces with which the dogs or cats come in contact must be spot-cleaned daily and

sanitized in accordance with Sec. 3.11(b) of this subpart to prevent accumulation of excreta and reduce disease hazards.

***In the sheltered facility, on the outdoor portion, there were at least 9 pens that were noted to have grime build-up on the hinged doors. Build-up of waste materials in and around the primary enclosures increases the risks of disease hazards to the animals by providing a harboring place for diseases.

The owner needs to establish and maintain a program of cleaning to assure that all hard surfaces are spot cleaned daily and sanitized in accordance with Sec. 3.11(b) of this subpart to prevent accumulation of excreta and reduce disease hazards in order to be in compliance with this regulation.

Affects 8 adult dogs.

This inspection began at 0958.

The owner has 90 days for 2 more inspections and will call inspector when ready for the next inspection.
Inspection and detailed exit briefing conducted by owner, Stephanie McLane, MDA and Beverly Hicks, ACI.
End of report.

Type: ROUTINE INSPECTION

Date: May-19-2009

ROLLA, MO 65401

Sec. 3.1 Housing facilities, general.

Facilities and Operating Standards

(f) Drainage and waste disposal.

Trash containers in housing facilities and in food storage and food preparation areas must be leakproof and must have tightly fitted lids on them at all times.

***In the female adult housing facility, there is a 5 gallon bucket on the floor with used needles and other trash in it and there are opened, empty cans of dog food setting on top of the floor heaters.

The owner needs to assure that all trash containers in housing facilities have a tightly fitting lid on them at all times.

To be corrected by May 22, 2009.

This inspection was conducted at 1430.

End of Report.

3.1 (b)

HOUSING FACILITIES, GENERAL.

Sec. 3.1 Housing facilities, general. Facilities and Operating Standards

(b) Condition and site. Animal areas inside of housing facilities must be kept neat and free of clutter, including equipment, furniture, and stored material, but may contain materials actually used and necessary for cleaning the area, and fixtures or equipment necessary for proper husbandry practices and research needs.

***In both buildings there is clutter in the middle isle consisting of pvc pipe, parts, opened trash, and other items as are the areas just outside the doors of the buildings. The owner states that he is changing the water system in the buildings, but was delayed due to the weather.

The owner needs to assure that all areas inside the housing facility are kept neat and free of clutter in order to be in compliance with this regulation.

Affects: all the dogs.

This inspection was conducted at 5:00 pm.

End of Report.
